作业

Listen/watch the video below as many times as you can. Use it in the way that works best for you – play it in the background for gentle familiarity, watch it with the text covered for listening comprehension or go through it slowly to check all the vocab. There's no one right way – but passively watching once isn't enough, so make an early start with it. It's full of really useful stuff and lots of revision, as well as a few new things.

And don't forget to keep practising writing characters. We didn't have time for them last lesson so you know what's coming next lesson :D
