作业

- In addition to the usual routines (practising writing and reading the notes) go carefully through the following video which should be effective revision of lots of the vocab in HSK 2 +
- Try to watch it in different ways – have it on in the background as listening practice, watch it carefully and notice any different ways that language is used. Just try to make the most of it. If you want to have a go at trying to make the speed a bit faster, a bit more natural, use the settings button to increase the speed. (It still sounds natural at 2x)
