水 火 土，

日 月 田。

山 里 木，

云 中 天。

作业

今天是十月十七号

昨天是十月十六号

明天是十月十八号

今天星期三

明天星期四

作业

我妈妈也工作

我也十二岁

我妹妹也是小学生

我哥哥也上九年级

我们都是中国人

今年我们都十二岁

我们都上十年纪

This week we practised/revised asking basic questions using:

什么

几

哪儿

怎么

多少

谁

Etc

Remember 多少

is generally used when you expect a larger number and 几

is used when you expect a smaller number

Because I'm off to 中国旅行 for 三个星期 there won't be another 中文课 until 五月: to be specific: 五月三日.

So I'm going to set you lots of 中文作业 to keep you all 很忙

Don't leave it all to the last minute. Little and often!

(And remember you can always use the work book to look at any exercises before unit 10 that I haven't set. We wouldn't you to run out of things to do, now would we?)

作业:

Page 68 – all three exercises.

Page 69, exercises 15 & 16

P 70 Exercise 18

Then look through pages 72-75 as they are a revision summary of everything we've covered recently ...

好好学习!

复活节快乐!
