

Mandarin Chinese Beginners

Helen Day

2019

This lesson there were no students. I couldn't remember who had told me they couldn't come and who hadn't so I sat in an empty room until 8.20 and then went home. Unfortunately, soon after that Kate turned up!

Perhaps best if I give you all my mobile number to make sure this doesn't happen again.

No students doesn't mean 'no 作业'

Using the grid, try to find as many character combinations as you can of adjacent characters and list the 'words', phrases or place names as you can.
